Vladyslav Herasymenko

Senior Frontend Engineer (React / TypeScript)

Frontend developer with 5+ years of experience building React and TypeScript applications for enterprise GIS, fintech and analytics platforms. Strong in frontend architecture (Feature-Sliced Design, Atomic Design, dependency injection with Inversify) and automated testing (Jest, Cypress). Mentored junior developers and led code reviews on long-lived codebases. Looking for a remote Senior Frontend role in a product team where I can own architecture decisions and grow towards a Team Lead position.

WORK EXPERIENCE

04.2023 – Present · Kyiv, Ukraine

Frontend Developer | SE "Infotech"

- Architected scalable React + TypeScript applications with Feature-Sliced Design and Atomic Design, improving maintainability and onboarding of new developers.
- Built GIS interfaces with the ArcGIS JS SDK: interactive map layers and spatial data visualizations.
- Introduced dependency injection (Inversify) to improve testability and modularity.
- Wrote and maintained unit and integration test suites (Jest), reducing regressions and increasing release confidence.
- Mentored junior developers, ran knowledge-sharing sessions, took part in project planning and code review.

08.2022 – 03.2023 · Kharkiv, Ukraine

Frontend Developer | Unit Space

- Developed cryptocurrency service modules for web platforms and online stores, including multi-currency wallet integrations.
- Implemented authorization with two-factor authentication (2FA) and role-based access control.
- Built an admin panel covering user management, account settings and support tickets.
- Refactored legacy code to reduce technical debt and standardize component patterns.

05.2021 – 07.2022 · Kharkiv, Ukraine

Frontend Developer | Zfort Group

- Built analytics dashboard visualizations with Recharts, Chart.js and react-charts.
- Integrated the frontend with multiple backend services and databases.
- Delivered responsive, cross-browser interfaces from design specs; reviewed peers' code and proposed tooling improvements.

09.2020 – 04.2021 · Remote

Freelance Frontend Developer

- Delivered frontend development projects for private clients.

05.2019 – 08.2020 · Kharkiv, Ukraine

Frontend Developer | KE Development

- Implemented UI designs in JavaScript and CSS; shipped features and fixed bugs.
- Wrote tested code, conducted code reviews, took part in architecture planning with backend and UX/UI teams.

SKILLS

- **Languages:** TypeScript, JavaScript (ES6+), HTML5, CSS3, Sass/SCSS
- **Frontend:** React, Next.js, Redux, Redux Toolkit, Redux Saga, React Router, Tailwind CSS, Material UI, Vite
- **Testing:** Jest, Cypress, unit and integration testing, TDD
- **Architecture:** Feature-Sliced Design, Atomic Design, dependency injection (Inversify)
- **Data & visualization:** ArcGIS JS SDK, Recharts, Chart.js, REST, GraphQL, Swagger
- **Backend & tools:** Node.js, NestJS, PostgreSQL, MongoDB, SQLite, Docker, Docker Compose, Git, GitHub, ESLint
